Mission

The Center’s core mission is to improve the lives of those who live with multiple sclerosis and their families through care, education, support and research.
2007 was a very busy and productive year. The programs and services we provided significantly impacted the lives of people with MS and their families. 2007 was also a year of intensive planning and preparation. It was a year in which we did a lot of soul searching about what the community needed from us and how to implement our true vision and mission. Conducting a national search for a medical director, we found ourselves in the fortunate position of entering into negotiations with one of the best MS neurologists and researchers in the world. The MS Center has made leaps and strides in implementing our vision and mission in 2008, but all the ground work was laid in 2007. 2007 was the year that the seeds were planted and cultivated in order to grow the Rocky Mountain MS Center into a regional MS Center of excellence, with synergistic relationships and a new sense of purpose. Special thanks to the Board – who recognized the need to step up in order to make a bigger impact. We knew that we needed to be more than we had been, because people with MS needed more from us. Your support made this possible, and we need your continued support as we move forward. Thank you!

Karen Wenzel

It is with a great deal of pride that we share the accomplishments of the Rocky Mountain MS Center in 2007. We have taken your gifts of support and put them to work providing important services and programs for people with MS and their families. The Board works hard to make sure that we make a positive impact on the lives of those we are entrusted to serve. I would like to acknowledge all of them for their leadership and service. It is also important to note that every board member also personally supports the work of the Center with their gifts of financial support. Many of you may already know that my work on behalf of the Rocky Mountain MS Center is quite heartfelt and personally significant. Thirty years ago, my father, N. Daren Writer founded the Rocky Mountain MS Center. He had been diagnosed with MS, and being a man of great action, he founded the Center with the help of his friends in the community. Many of these friends continue to serve the Center as honorary board members today. Serving as chairman of the board allows me to honor my father’s legacy, and I hope to leave a legacy of my own.

You can expect great things from the Rocky Mountain MS Center in 2008. It will only be with your continued support that we can all live in a world free from MS

The Rocky Mountain MS Center (RMMSC) is a nonprofit organization that was founded in 1978 as one of the nation’s first comprehensive centers dedicated to the study and treatment of MS. The MS Center was created by doctors and other community leaders who had a deep concern for the losses suffered by people in the prime of their lives due to multiple sclerosis. The Rocky Mountain MS Center is an international leader in the search for the cause and cure for multiple sclerosis and for the most effective treatments for patients who live with the disease. At the Center, physicians, nurses, researchers, rehabilitation therapists, counselors and staff devote all of their time to helping people with MS find answers that work, while at the same time advancing critical MS research. The Center offers state of the art medical care from an inter-disciplinary team of MS specialists; education providing the most current information; access to current clinical trials and research; a specialized adult day program to assist in the care of a loved one; the largest and most comprehensive complementary and alternative medicine program in the nation; and houses one of only four MS-related brain and tissue banks in the country to support scientific research.

**Vision**

To be the MS Center of Excellence for people with MS and their families and lead the way in research, developing new effective treatments and the cure for MS.

**Goals**

1) Provide access to unsurpassed, innovative and integrative care for people with MS regardless of ability to pay.

2) Provide services that support individuals and families throughout the entire MS life cycle.

3) Provide high quality education opportunities for people with MS, their families, professionals and the public with cutting edge information about MS.

4) To lead the way in MS research, developing new, effective treatments that lead us toward our goal of finding the cure for MS.

For more information – contact us at 303-788-4030 or visit our website www.mscenter.org.
Care

King Adult Enrichment Program (KADEP): KADEP provided specialized adult day services to 145 individuals with MS and other chronic neurological conditions and their families, averaging 57 clients/day and providing 14,260 units of service in 2007. Clients were served two meals/day, and involved their choice of over 75 therapeutic activities each week. The program demonstrated that 17% of the clients improved in functional abilities, 68% of the clients maintained their functional abilities and 15% declined.

Specialized Neurology Care: Through our affiliation with Colorado Neurological and Neurocare of Colorado, we supported the neurology care of over 1300 clients.

MS Rehabilitation Clinic: This clinic was offered monthly providing 60 individuals with an MS specialized rehabilitation assessment and care plan.

Hydrotherapy: We offered seven programs throughout Metro Denver – serving over 155 individuals. MS Hydrotherapy is a cost-effective way to provide ongoing therapy and exercise for people with MS.

Support

MS 101 offered monthly for individuals newly diagnosed with MS.

Disability Assessment Clinic assisted over 100 clients with their disability application processes. In an outcome study, we demonstrated that of 72 individuals who applied for disability – 100% received their benefits on the first application attempt.

Caregiver Support Group and Night Out: Provided ongoing support group for 24 individuals and a “night out” for 100 dedicated family members who deserve to be appreciated and given respite throughout the year.

Fatigue Management: A new course offered quarterly for people with MS seeking practical ways to manage MS-related fatigue. This course was designed for people with MS who are seeking practical ways to manage fatigue. Classes were offered quarterly and 30 people attended.

continued on page 8
Program Highlights of 2007

continued from page 7

**Individual and Family Consultations:** Provided at no charge, by our licensed clinical social worker with over 25 years of MS and chronic illness expertise.

**Education**

**InforMS:** Our educational and informative quarterly publication sent to 14,000 households by mail and to 26,000 electronically each quarter.

**Website:** With archived information on MS, as well as information about our programs and services, www.mscenter.org had over six million hits in 2007.

**Patient Seminars:** We offered six large patient seminars – on topics including MS Research, Advocacy, Wellness, Psychosocial Issues, Rehabilitation, and Adaptive Equipment. Over 200 people attended each seminar.

**Professional Seminars:** We offered two Nurse Practitioner and Physician Assistant seminars as well as a Provider’s Summit for healthcare providers serving people with MS.

**Individualized Integrative Education Plan:** This hour long, one-on-one MS Wellness consultation was provided for over 400 individuals in 2007, with excellent results.

**Research**

**The Complementary and Alternative Medicine (CAM) database** implemented a longitudinal quality of life survey. Presentations were made at the annual MS Consortium meeting.

**RMMSC Brain and Tissue Bank**

Significant improvements were made in the Rocky Mountain MS Center Brain and Tissue Bank, incorporating new quality standards and technology.

**Adult Day Care Study**

Ongoing participation in a multi-center study on adult day services for people with MS.

A prestigious group of community leaders, supporters and visionaries of the Rocky Mountain MS Center. Members of the Writer Society have named the Rocky Mountain MS Center as the recipient of their planned gift. Named after the founder of the Center, N. Daren Writer, the society continues to forge leadership in MS care and services. When Daren was diagnosed with MS in 1974, he was told there was no treatment and to “go home and put his affairs in order.” Being a man of action and a leader in the community, Daren was determined to make a difference. A brilliant young neurologist joined Daren, and together they inspired others to invest in their dream of a comprehensive healthcare center of excellence for the care, support and education of people living with MS. They also set a goal to promote research leading to better treatments and eventually the cure. These dedicated donors keep that dream alive with their involvement and commitment. We hope you will consider joining them.

For more information, contact Sally Reed, Development Director at 303-788-4030 X 106 or sreed@mscenter.org.

Special thanks to the National MS Society for their support of the RMMSC Brain and Tissue Bank – the RMMSC was provided a generous grant in the amount of $806,000 to fund the operations of the Tissue Bank for a five year period from October 1, 2004-September 30, 2009.
